

Creating a DeakinAir channel

DeakinAir

Prepared by the Deakin Learning Futures TeachAssist team
teachassist.deakin.edu.au

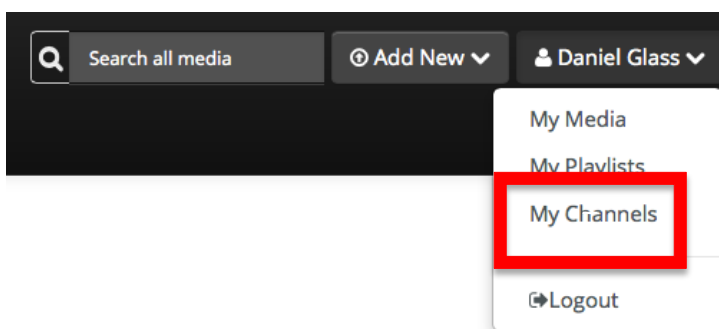

CRICOS Provider Code 00113B

Overview

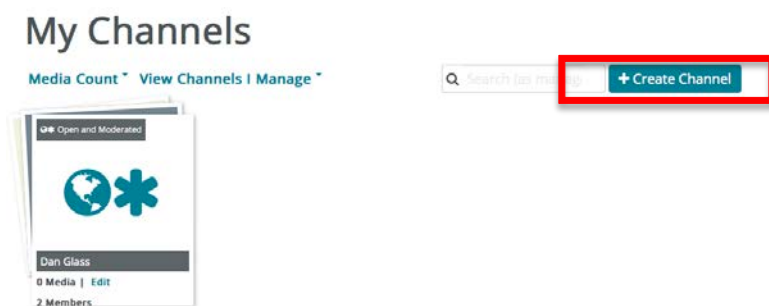

A good way to group content is to create a channel. This allows you to monitor clips that are being added, and moderate to decide what will be shown.

Follow the instructions below.

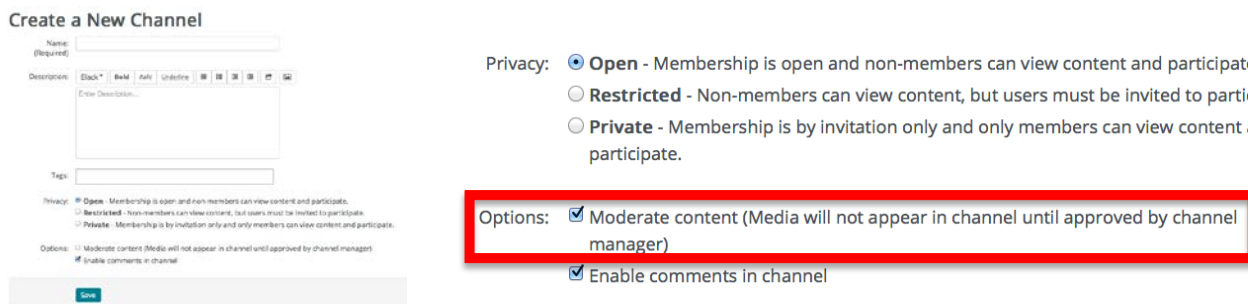

1. Select 'my channels' from the drop down menu where you normally login – select 'my channels'

2. Choose 'create new channel'

3. Fill in the necessary information like the name of the channel. You can also choose the privacy settings and to 'moderate the content'. Once you are satisfied with the settings, press save.

Options with your new channel

- Edit Mode: Allows you to add members, contributors, moderators, and managers.
- Add Media: You can select to add media and publish.
- Media Upload: Import a video directly to your channel.
- YouTube: Add a video in from YouTube account directly to your channel.
